Break into subgroups by CCMP action to develop **specific** projects:
 - Choose 1 specific idea and build some details including scope, partners, topics, etc.
 - [LOOK at CCMP](#) and choose at least 3 actions (but ideally more!)
 - What role could your organization have?
 - Which partners would need to be involved?
 - Look for convergences between other actions/subgroups/APNEP teams
 - How will this project meet CCMP goals / objectives / ecosystem outcomes & results?
 - What resources are needed from APNEP?
 - Leveraging: what additional funding sources /grant opportunities could the team pursue?
- Logistics & Wrap-Up
